Gramodaya Schemes for rural people

1337. PROF. M.M. AGARWAL:
SHRI BACHANI LEKHRAJ:

Will the PRIME MINISTER be pleased to state:

(a) whether Government have started any 'Gramodaya Scheme' to cater to the needs of the important sectors like availability of drinking water, housing, nutrition, primary health, elementary education and rural electrification in order to uplift the living standard in the rural areas of the country;

(b) if so, the details thereof;

(c) the main objective of the said scheme;

(d) the details of the targets under the said scheme and the amount allocated to each State/UT; and

(e) The details of the steps being taken by Government to achieve the said targets in order to bring prosperity in the villages?

THE MINISTER OF STATE IN THE MINISTRY OF PLANNING (SHRIMATI VASUNDHARA RAJE): (a) Yes, Sir.In- order to achieve the objective of sustainable human development at the village level, the Pradhan Mantri Gramodaya Yojana (PMGY) has been launched by the Government during the Annual Plan 2000-01 in all the States and Union Territories.

(b) There are six components under PMGY. These are Primary Health, Primary Education, Safe Drinking Water, Rural Shelter, Nutrition and Rural Electrification. Rural Electrification has been added as the sixth component under PMGY in the Annual Plan 2001-02. Under PMGY, Additional Central Assistance (ACA) is provided to the States and Union Territories to implement various components of the Programme.

(c) The main objective of the Programme is to ensure provision of basic minimum services (the various components of PMGY) to all rural households in the country so that sustainable human development could be achieved at the village level.

(d) The State and UT-wise allocation of ACA during the Annual Plan 2000-01 and 2001-02 are given in Statement-I and Statement-II respectively (See below). The States and Union Territories are required to earmark at least 10 per cent of their ACA for each of the components under PMGY except for Nutrition for which a minimum 15 per cent earmarking has been stipulated under the guidelines. This works out the 65 per cent of the total ACA which is mandatorily earmarked for six components of PMGY. The residual 35 per cent of ACA is required state to be allocated by the States and Union Territories as per their own discretion.

Keeping in view the allocation for various components of PMGY, the States and Union Territories fix annual targets under each component. The proposals are sent to the concerned Central Ministries and Departments who in turn examine the same and make recommendation to the Ministry of Finance for release of ACA to the States and Union Territories.

(e) As stipulated in the guidelines, the Annual Plan proposals under PMGY are required to be implemented in a time bound manner. The second instalment of ACA under a component of PMGY is released only after a minimum 50 per cent expenditure is incurred and reported to the concerned Central Ministries and Departments. While financial and physical monitoring of PMGY are carried out by the concerned Central Ministries and Department;, the over all coordination of PMGY is the responsibility of the Planning Commission.

Statement -1
